

400 SERIES

Woodwright® Insert Windows

Simple Replacement

Woodwright® insert windows are made to fit the existing window opening for fast installation with minimal disruption. You keep the existing frame and trim.

Beauty

The all-wood interior is precisely crafted with classic details to seamlessly blend with traditional homes.

Weathertight Performance

High-Performance™ Low-E4® glass helps insulate against heat and cold, which can help cut energy bills. It also filters UV rays that can fade fabric and damage furniture. In addition, durable weatherstripping helps create a tight seal against air and water.

Durability

Perma-Shield® exterior cladding and Fibrex® sash exteriors offer low maintenance and long-lasting performance.*

Easy Cleaning

High-Performance Low-E4 glass has an exterior coating that stays cleaner, dries faster for easy cleaning and has up to 99% less water spots (exterior pane only when activated by sunlight). And the tilt-wash design makes it easy to clean the exterior glass from inside your home.

Owner-2-Owner® Limited Warranty

Glass is covered for 20 years and non-glass parts are covered for 10. Coverage is not pro-rated and can add real value when the home is sold.

*For complete information on our limited warranties, visit andersenwindows.com or contact your Andersen supplier.

features & options

With High-Performance™ Low-E4® glass, these products are designed to use less energy, help you save money on utility bills and help protect the environment.

Three sill angles are available to closely match existing sill in window replacement applications.

Optional TruScene® insect screens feature micro-fine mesh that lets more light and fresh air into your home, yet keeps even the smallest insects out.

Optional Estate™ hardware lets you match your décor.
